Online Course: PSYCHOPHYSIOLOGY & BCIA PREPARATORY COURSE

Frequently Asked Questions

1. Do I have to be a Widener University student to take a class?

No. Student status is not required at all. You will not receive any academic credit for this course. However, the course work can be used to meet the didactic requirement for certification in general biofeedback through BCIA (the Biofeedback Certification Institute of America).

2. How long can I take to finish the course?

One year, starting from when you choose to enroll. You will be given an access code (User Name and Password) that will be activated for a 1 year period of time. You may also apply for an extension, if necessary.

3. When can I start the course?

You can start this course at any time during the year. Once you register and are given your User Name and Password, you will have 1 year to complete the course. At that time, your User Name and Password will deactivate.

4. Can I work from different places and computers as I proceed through the course?

Definitely. For our Web courses, you only need to remember the web course address and your log-on ID number (will be assigned to you once you register).

5. Can I take this course even if I don't want to apply it towards BCIA certification?

Yes, this course teaches psychophysiological principles as well as biofeedback techniques?
